

ZORA 24-port Cat 6 Unshielded Modular Distribution Frame

ZORA 24-port Cat 6 Unshielded Modular Distribution Frame applied to data network communications, modular patch cords connecting device device, the main wiring room and the distribution of each application. 19-inch rack-mountable, using all-steel plate overall structure, to ensure that the product higher mechanical strength. Modular design, easy to install and maintain, each module can be individually removed and replaced, easy to terminate and maintain.

ZORA 24-port Cat 6 Unshielded Modular Distribution Frame Features

- 1、 Made of cold rolled steel plate, with plastic spraying surface treatment, beautiful and generous;
- 2、 Modularized design, suitable for quick installation of modules;
- 3、 Piano key type cable management bracket, for bundling cable management, effectively reduce cable tension;
- 4、 Front intuitive grouping labeling, to the network management, maintenance provides convenience;
- 5、 It can be directly installed in 19" standard cabinet, wall-mounted cabinet, etc..

Reference Standard

- ANSI/TIA 568.2-D
- ISO/IEC 11801

Technical Specifications

Construction	
Body	
Body Material	Adoption of high-quality SPCC cold-rolled steel plate
Body Surface	The surface has undergone special spray coating treatment, which is sturdy, beautiful, and not easily scratched
Front	
Front Label	Positive and intuitive grouped labeling area provides easy management of written labels
Rear	
Rear Tray	Straight cable management bracket on the back for bundling and cable management, effectively reducing cable tension

Physical Ranges	
Operating Temperature	-20°C ~ +70°C to meet the requirements of 48 hours of salt spray test
Norm	Standard 19" rack mount, height: 1U
Mounting	Modular design for quick installation of ZORA modules
