ZORA Adapter Panel

ZORA adapter panel for fiber optic backbone connection of hub distribution cables for 1U/2U/3U fiber optic patch panels and 1U pull-out fiber optic distribution boxes.

ZORA Adapter Panel Features

1. High-density port management, a single adapter panel can be configured with 12 LC adapter ports, 6 SC adapter ports, and 6 MPO (MTP) adapter ports.

2. Flexible structure, flexible selection of adapter port configuration.

3. Snap-on installation, convenient construction.

4. Strict factory testing to ensure quality.

5. Easy to upgrade to 40/100G network without changing the fiber management structure.

6. Implementation standards: meet TIA/EIA604-5, IEC61754 series standards.
