

ZORA Cable Management

ZORA cable management for data network communications, is based on the international design and manufacture of 19-inch racks, so that the cable more quickly and neatly, for your structured cabling to provide higher performance and efficiency.

ZORA Cable Management Features

- 1、 Cold-rolled steel plate all-metal material, to ensure that the product is strong and durable;
- 2、 Jumper management, press the jumper into the cable manager, cover the dust cap for easy protection of the jumper;
- 3、 Can be installed in the cabinet, which helps cable distribution rationalization, easy to future system maintenance and upgrades;
- 4、 Large capacity design for up to 48 patch cables Used in conjunction with patch panels to organize patch cords and make cabling more organized
- 5、 Compliance with industry standards: EIA/ECA-310-E.

Technical specification

Structure	
Main part	
Body Material	Adoption of high-quality SPCC cold-rolled steel plate
Thickness	1.1mm
Body Surface	The surface has been sprayed with special treatment, which is strong, beautiful and not easy to be scratched.

Physical Property	
Working environment temperature	-40℃ ~ +70℃
Specification	Standard 19-inch rack mount, height
Color	Black
Size	482mm x44mm x67mm
