

ZORA Wall Mounted Cabinet

ZORA wall-mounted cabinets are used to install 19-inch rack-mounted hardware and store the customer's required IT equipment (such as switches, routers, communications equipment and other lightweight equipment) floor to wall cabinets, can support hanging walls, can also be placed on the ground, with good network cable and communications cable management management capabilities.

ZORA wall-mounted cabinet Features

- 1、 19-inch standard cabinet construction design;
- 2、 Top and bottom knock-down cable routing holes for easy cable management;
- 3、 Front door opening direction can be changed as needed, quick-opening side door, convenient for two installation methods;
- 4、 Load capacity up to 60KG, protection class up to IP20;
- 5、 Pre-assembled pegboard for wall mounting and internal screw locking to prevent theft or accidental dropping;
- 6、 Pre-assembled bays to hold required equipment.

Reference Standard

- GB/T 19520.16-2015
- ANSI/EIA RS-310-D
- IEC60297-2

Technical specification

Structure	
Main part	
Makings	Made of high quality SPCC cold rolled steel plate
Surface	Degreased, pickled, phosphated, electrostatically sprayed
Color	Black
Front door	
Makings	Single opening tempered glass door with adjustable left and right opening directions.
Left and right side doors	
Side Panel	Quick release side panels with plastic clasps
Internal Composition	
Frame	Integral welded frame, stable and reliable structure
Angle Gauge	4 mounting angle gauges
Top Plate	Rear knock-down holes for cable routing, 2-position fan ventilation holes reserved
Bottom Plate	Rear cable routing
Hanging Plate	Auxiliary wall mounts for easy positioning
Back Plate	Enclosed space with cabinet
Bracket	2pcs/4pcs pre-installed brackets for equipment
Kit	M6*12 plum groove screws + M6 jam nut + plum wrench
Tray (optional)	19-inch standard mounting, equipment can be placed
Fan (optional)	220V AC fan for ventilation and heat dissipation Rackmount Power Distribution Units
PDU (optional)	Integral welded frame, stable and reliable structure

Physical Property						
Static load	60KG					
Protection rating	IP20					
Cabinet width (mm)	600					
Cabinet depth (mm)	450					
Cabinet height (mm)	281	370	635	768	902	1079
